OVER 350 people have died from excessive heat already during the month of July.

CHICAGO has a formidable rival for the proposed pan-American exposition in the city of New Orleans.

The announcement that Chicago is suffering from excessive heat and a coal famine at the same time seems like a paradox.

AN English syndicate has closed a deal for all the coal mines in the Jellico district of East Tennessee, and for most of the coal mines near the Cincinnati Southern railway both in Kentucky and Tennessee.

A PARIS dispatch says the French government has instructed its embassy in London to co-operate with the American bimetallic commission in an effort to get England to agree to go into an international congress on the subject.

TOM WATSON, the ambitious middle-of-the-road populist, has swung his Georgia paper around to the defense and support of the principles and purposes of the A. P. A., a religious-political association gotten up to combat the Catholic religion.

THE French Count de Castellanos, whom Annie Gould purchased for a husband, was recently denied admission to the Paris Jockey club by 285 black-balls, whereas one black-ball was sufficient to reject. His younger brother was elected to membership at the same session.

GENERAL LEE reports to Washington that of the \$50,000 appropriated by congress for the relief of destitute Americans in Cuba he has expended but \$6,000, and yet he has given substantial aid to every distressed American who would accept it, and has sent a number of such home.

The gathering of English colonial premiers at Westminster during the recent jubilee gave the British authorities to understand that the colonies not only desired but demanded representation in the government. Premier Laurier, of Canada, said that dominion was fully grown, and must have a voice in the government or have a government of its own.

THE relatives of the negro recently lynched at Urbana, Ohio, brought suit to recover from the county the damages allowed by an anti-lynch law passed by the last legislature of that state, but the court of common pleas at Cleveland has declared the law unconstitutional, on the ground that it fixes the amount of damages instead of leaving the jury to assess the same.

THE secretary of the United Mine Workers of Illinois has written to Senator Mason that he (the secretary) doubts "if any more lives have been lost in Cuba since the struggle commenced than in the mines of Illinois during the same time," and he is quite certain "there are no more women and children hungry in Cuba at present than among the families of the Illinois miners."

THE Cheyenne and Arapahoe Indians of the territory contend that Uncle Sam is equal in cruelty to General Weyer because he seeks to deprive them of all but one of their cherished wives—and of the annuities each wife and child draws. They say they cannot choose any one among their many wives, because they are attached to each, and that, rather than give up any of them, they will migrate south into Mexico. The laws of Mexico do not tolerate polygamy, but the authorities wink at it.

THE startling discovery has been made and the matter is now agitating all England, that Queen Victoria, who by reason of her position is the supreme head of the established church, was never either confirmed or baptized in that church. At least no record of such confirmation or baptism can be found. There is not even any official or authenticated record of her birth; still the church and the people are satisfied that she was born, and the absence of any record thereof is of but little moment; but if she is not in the church through the door and flummery provided by man it is a very serious matter, in the estimation of the clergy.

THEY have the powers on the hip. They cannot or will not take European Turkey and settle its vast bonded debt. They cannot run that government on its income, and there are but two ways open to increase that income. One would be to levy an import duty, but this would lay a heavy tax on \$50,000,000 worth of goods imported from England, Austria, France, Germany, Russia and Italy. The other plan would be to tax church property, and this would have to be preceded by confiscation—which the sultan dare not attempt, and no other country, nor all of them, would care to incur the fanatical opposition such an attempt would arouse. Like the United States and other Christian countries, Turkey exempts church property from taxation, and in consequence of this many rich Musselman families have ceded their landed estates to the mosques to escape taxation, being permitted to continue occupancy of them. Any attempt to impose a tax on church property or confiscate any part of it, especially if made by Christian powers, would be regarded as a sacrilege committed by the infidels, and would be resisted to the death by 150,000,000 Moslems. These are the stubborn facts that deter any one and all of the powers from assuming the administration of Turkish affairs.

MRS. LANGTRY, having made a fortune of her own and obtained a divorce from the husband of her choice, has arranged to purchase an antiquated Austrian prince named Esterhazy sixty years old and twice a widower, to whom she is soon to be married. Thus while American dukes ape English chippies, English beauties follow the bad example of American heiresses.

NEAR LA CIMA, N. M., a short time since, two young and pious Mexicans lassoed by the head and heels and dragged to death by their horses a respectable old lady who was eighty years of age, the mother of one of the young men claiming that they performed the "sacred duty" in strict accordance with Exodus XXII, 18.

ALABAMA is entitled to the banner for stories related as the result of the late hot weather, as they claim, that in that state corn was parched on the cob on the stalk in the field and seven chickens were hatched out in one box of eggs passing through Montgomery.

THE ladies, the press and the pulpit of Sacramento, Cal., have united with the retail clerks in urging the early closing of stores, 6 o'clock being the hour contended for. The ladies of New Orleans are also leading a movement for early closing in that city.

CALIFORNIA is now shipping fresh fruit direct to London, the fruit being transferred direct from refrigerator cars at New York to the refrigerator rooms of steamers. The through freight, including transfer and icing, is \$1.56 per car.

THE French chamber of deputies, by a vote of 425 to 110, has adopted a measure authorizing the president of that republic in his discretion, to raise on 24 hours notice, the duties on wheat, cattle and meat.

THE administration is not going to be caught napping in case Japan should attempt interference with Hawaiian affairs, as three war ships have been ordered to keep watch over the islands.

SOCIETIES and national conventions have become such a fad that even the hay makers have formed a society and are to hold a national convention at Pittsburg August 10th.

THE bimetallic commission sent to Mexico not only appears to have made a favorable impression but some headway toward international bimetalism.

THE New York Sun, which has stood by Tammany ever since the days of Lincoln, now publicly declares its adhesion to the republican party.

THE Japanese press is decidedly belligerent toward the United States and seems to court war with this country.

Gotham girls who "live out" are virtually on strike. They object to doing general housework. A philanthropic lady who has been doing all in her power to help working girls, even going so far as to maintain a private employment bureau, says it is almost impossible to get a girl to do general housework at a reasonable price. From \$18 to \$25 a month is now demanded for the same quality of labor that used to cost itself amply compensated at \$14 and \$15 a month. The old-fashioned domestic servant is almost extinct there.

George T. Atkins, for a number of years identified with the receivership of the Texas Trunk railroad, and a number of associates of means have started a movement to locate a Dallas colony in Mexico. Over thirty families have announced their willingness to go. All have a comfortable sum of money, are acquainted with each other and with the promoters of the colony and propose locating together in Northern Central Mexico to engage in agricultural pursuits. The colony is expected will be ready to start by August 1.

During the past six months 99,664 cars of grain and 138,255 cars of live stock have been delivered by the railroads running into Chicago.

The bad breath is a danger signal. Look out for it! If you have it, or any other symptom of indigestion, take a bottle or two of Dr. Pierce's Golden Medical Discovery. It will straighten out the trouble, make your blood pure and healthy and full of nutriment for the tissues. It is a strong statement but a true one that the "Golden Medical Discovery" will cure 98 per cent of all cases of indigestion if it is taken in the early stages. It will relieve even the most obstinate cases of long standing.

## JUDGE REAGAN

Ably Defends His Speech at the Nashville Session.

AUSTIN, Tex., July 15.—In his speech delivered at the Nashville conference on confederate day in reference to the charge that at the Hampton Roads conference, Jan. 3, 1865, President Lincoln had proposed to Messrs. Stephens, Hunter and Campbell that the United States would pay \$400,000,000 for the slaves on the condition that the confederates would abandon the war and return to the union, Judge John H. Reagan, of Texas, said in most emphatic terms:

"I wish to assert most solemnly that no such offer in any form was made."

This denial of Judge Reagan's that any such proposition was ever made by President Lincoln has brought quite a number of record men to the front with the assertion that the proposition was made by Lincoln and that Reagan was in error. Judge Reagan today comes out in a long letter to the public press defending his statement and producing historical data to show that Lincoln never made any such proposition.

Judge Reagan quotes vice President Stephens to prove that no such proposition was made and further proves that at no time did Lincoln say: "All I want to write 'union' at the bottom of a sheet of paper and you may write whatever you please above it."

He also quotes from the confederate commissioner's report of the Hampton Roads conference to show that the only terms which Lincoln considered was the unconditional surrender of the confederacy.

Judge Reagan then quotes from President Lincoln's message to congress, Dec. 3, 1864, citing that in that message he called attention to the fact that the constitutional amendment to abolish slavery had failed of a two-thirds vote in passing the senate and recommended that congress reconsider its action and pass the amendment at once. The judge cites the fact that at the Hampton Roads conference Lincoln told the confederate representatives that he adhered to this message, which would prove that he made no \$400,000,000 offer for the freedom of slaves and the cessation of war. He also called attention to the fact that said message cites that the confederacy can secure peace at once by laying down their arms and submitting to the national authority, and further that Lincoln said he stood by this message when he met the commissioners at the Hampton Roads conference. The judge uses a number of Lincoln's slavery proclamations and letters of the Hon. Wm. H. Seward, the United States secretary at that time to prove that no money consideration was ever presented at Hampton Roads and that Lincoln laid down the ultimatum of unconditional surrender or nothing.

He closes by saying that he hopes that no person in the future will credit the false statements that Lincoln was offered at the Hampton Roads closing and further that Lincoln made any proposition about writing "union" at the bottom of a sheet of paper and let Mr. Stephens write anything else he pleased above it.

Judge Reagan says most emphatically that all these charges are false and that the only proposition made the confederacy at Hampton Roads conference was that of unconditional surrender.

Philip Lashley, a Dane convicted by the United States court for killing John Saunders, a United States soldier, at Huachuca a year ago, was hanged at Tucson the other day. He displayed remarkable nerve. He asked for a silk hat to wear instead of the black cap at the execution. He made peculiar remarks, danced a jig on the scaffold and just before the drop fell he cried, "Let her go, Gallagher!" His neck was broken and he died without a quiver.

In view of the probability of Me-Cord not being confirmed as governor of Arizona, it is thought that the public that the Proprietor, from the first, advocated the appointment of a man who is, and always has been, above suspicion or reproach: one who would make an ideal governor and an example of honest manhood. R. A. F. Penrose has no private quarrels to avenge and no public act to conceal.

Within the past three days the president has received numerous telegrams from Frank and Oakes Murphy and several of the leading republicans in Arizona, asking for the immediate removal of Governor Franklin and the appointment of Secretary Akers as acting governor. The telegram states that the governor's actions in the board of control matter savors of jobbery.

The famine in India has killed already eight million people, but competent observers they say that had the present famine occurred twenty years ago a hundred million people would have perished, given like conditions of density of population and scarcity of food; but nowadays, with a modern transportation system, relief has been carried to places once inaccessible.

A proposition to admit bibles, in whatever language printed, free of duty, was defeated by a majority of four votes during the recent tariff discussion in the U. S. senate. And why not? The American bible is better than any other. American bibles for Americans, that's our motto.—Max. Frost.

## Healthy, Happy Babies

are generally the offspring of healthy, happy mothers. It would hardly be natural if it were otherwise. The baby's health and happiness depend on the mother. The mother's condition during gestation particularly exerts an influence on the whole life of the child. If a woman is not careful at any other time, she should be especially careful during the period preliminary to parturition. It is a time when greatest care is necessary, and nature will be better for a little help. Even strong, well women will find themselves feeling better, and times of labor shortened and their pains lessened if they will take Dr. Pierce's Favorite Prescription. To those whom troubles, particularly feminine, have rendered in any degree weak, it will prove a veritable blessing. It is a good, general tonic for the whole system, and at any time will promote the proper and regular action of all the organs. It is a medicine for women only and for all complaints confined to their sex is of inestimable value.

"Last summer one of our grand-children was sick with a severe bowel trouble," says Mrs. E. G. Gregory of Fredericktown, Mo. "Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by all druggists.

**Southern Pacific Excursions.**

Commercial Agent Hunt, of the Southern Pacific, has received telegraphic notice of a reduction in excursion rates to California points, i. e., Santa Monica, Long Beach, San Pedro, San Buena Ventura and Santa Barbara.
